I. Summary:

Senate Bill 138 reenacts provisions of law establishing and implementing the Interstate Compact on Educational Opportunity for Military Children.

The bill provides for future legislative review and repeal of the Interstate Compact on Educational Opportunity for Military Children three years following the effective date of the act, which is upon becoming a law.

The bill repeals section 3, chapter 2010-52, Laws of Florida, which provides for a future repeal of sections 1000.36, 1000.37, 1000.38, and 1000.39 of the Florida Statutes.

II. Present Situation:

Interstate Compact on Educational Opportunity for Military Children

Children in active-duty military families face unique educational challenges. The average military child transfers to a different state or school district six to nine times during kindergarten through grade 12. When a parent is reassigned, military children may be impacted by:

- Record transfer issues;
- Varied course sequencing and academic placement policies;
- Varied graduation requirements;
- Exclusion from extracurricular activities;
- Redundant or missed entrance or exit testing;
- Varied kindergarten and first grade entrance ages; and

- The need to appoint temporary guardians while the child's parent is deployed.¹

The Interstate Compact on Educational Opportunity for Military Children assists member states in uniformly addressing educational transition issues faced by active-duty military families. The compact governs member states in several areas, including school placement, enrollment, records transfer, participation in academic programs and extracurricular activities, and on-time-graduation for children of active-duty military families. The compact was developed by the Council of State Governments, in cooperation with the U.S. Department of Defense.² A compact is essentially a contract between sovereigns.³

States were required to enact the compact into law in order to join the compact, which the Florida Legislature did in the 2008 General Session.⁴ Enactment by ten states was required in order for the compact to take effect and be binding on member states, which occurred when Delaware became the tenth state to adopt the compact on July 9, 2008.⁵ Currently, 43 states and the District of Columbia are members of the compact.⁶

The compact establishes an Interstate Commission on Educational Opportunity for Military Children (Commission) to provide national-level oversight of the compact. The Commission may adopt and enforce bylaws and compact rules and perform various administrative functions necessary to day-to-day operations.⁷ The Commission is comprised of one voting representative, or Compact Commissioner, from each member state. Each state is entitled to one vote on compact rule adoption or other business matters.⁸ The Commission must meet at least once per year.⁹

Compact Rule Adoption

The Commission is authorized to promulgate compact rules which govern member states in the areas addressed by the compact. The compact rules have the force and effect of statutory law in member states and supersede conflicting member state laws to the extent of the conflict.¹⁰

Compact rules must not exceed the scope of authority granted by the compact. A majority of member state legislatures may invalidate a compact rule by legislative action.¹¹

⁸ Article IX, s. B. of the Compact, s. 1000.36, F.S.

⁹ Article IX, s. D. of the Compact, s. 1000.36, F.S.

¹⁰ Article X, s. B. and XVIII, s. B. of the Compact, s. 1000.36, F.S. The Compact also provides that if any part of the compact exceeds the constitutional limits imposed on the legislature of any member state, the provision shall be ineffective to the extent of the conflict with the constitutional provision in question in that member state. See, Article XVIII, s. E., of the Compact, s. 1000.36, F.S. Through a formal process of regular review and reauthorization, the Florida Legislature has mitigated potential conflicts that might arise within the context of a delegation of authority challenge.

¹¹ Article XII of the Compact, s. 1000.36, F.S.

Since enactment in 2008, Florida's compact legislation has included a repeal provision which requires automatic repeal of the compact after a period of time, unless reauthorized by the Legislature.¹² The repeal provision addresses concerns regarding unconstitutional delegation of legislative authority under Article II, s. 3, of the Florida Constitution.¹³ Because membership in the compact entails an agreement to be bound by rules promulgated by a non-legislative entity, i.e., the Commission, the repeal provision allows the Legislature to periodically review the compact rules and determine whether it agrees with any new rules or rule amendments adopted during the period. Reauthorization of the compact after such review diminishes a claim that the Legislature has delegated its authority.¹⁴

The Legislature last reauthorized the compact in 2010, and provided for repeal of the compact in three years, which is May 11, 2013.¹⁵ Since then, two rule amendments have been adopted by the Commission:

- Compact rule 2.104, which provides the compact membership dues formula, was amended in November 2011 to establish a minimum dues obligation of \$2,000 and a maximum dues obligation of \$60,000.
- Compact rule 3.102, relating to kindergarten and first grade entrance age, was amended in November 2012 to clarify that a student must "*physically attend*" kindergarten in the sending state in order to transfer into kindergarten in the receiving state.¹⁶

Neither amendment impairs Florida's continued participation in the compact.

III. Effect of Proposed Changes:

Section 1 repeals s. 3, ch. 2010-52, L.O.F., which provides for automatic repeal of the compact legislation.

Section 2 provides for repeal of ss. 1000.36, 1000.37, 1000.38, and 1000.39, F.S., the "Interstate Compact on Educational Opportunity for Military Children," three years after the effective date of the bill unless reviewed and reenacted by the Legislature.

Section 3 provides that the bill takes effect upon becoming law.

¹² See, ss. 5, ch. 2008-225; 3, ch. 2010-52, L.O.F.

¹³ Article II, s. 3 of the Florida Constitution provides for separation of powers among the executive, legislative, and judicial branches of state government. The Florida Supreme Court has held that it is an unconstitutional delegation of legislative authority for the Legislature to prospectively adopt rules not yet promulgated by federal administrative bodies. See, *Freimuth v. State*, 272 So.2d 473, 476 (Fla. 1972); *Fla. Indus. Commission v. State ex rel. Orange State Oil Co.*, 21 So.2d 599, 603 (Fla. 1945).

IV. Constitutional Issues:**A. Municipality/County Mandates Restrictions:**

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

D. Other Constitutional Issues:

The Florida Supreme Court has held that it is an unconstitutional delegation of legislative authority for the Legislature to prospectively adopt rules not yet promulgated by federal administrative bodies.¹⁷ To address concerns regarding delegation of legislative authority, the bill provides for automatic repeal of Florida's compact legislation three years after the bill takes effect, unless reauthorized by the Legislature. The repeal provision allows the Legislature to determine whether it agrees with any new compact rules or rule amendments adopted during the three year period and consider reauthorization of the compact. Reauthorizing the compact periodically accounts for any new compact rules and amendments adopted by the Commission since the last reauthorization, thereby diminishing a claim that the Legislature has agreed to be bound by compact rules not yet promulgated.

V. Fiscal Impact Statement:**A. Tax/Fee Issues:**

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

The compact requires the Commission to levy membership dues from each member state to finance Commission operations and staffing.¹⁸ Membership dues are based upon \$1 per dependent child of active-duty military personnel residing in a member state.¹⁹ According to the Department of Education (DOE), there are approximately 31,000

¹⁷ *Freimuth v. State*, 272 So.2d 473, 476 (Fla. 1972); *Fla. Indus. Commission v. State ex rel. Orange State Oil Co.*, 21 So.2d 599, 603 (Fla. 1945).

¹⁸ Article XIV of the Compact, s. 1000.36, F.S.

¹⁹ *Id.*; Section 2.104, Interstate Commission Rules. There is a minimum dues obligation of \$2,000 and a maximum of \$60,000.

children of active-duty military personnel living in Florida. DOE's legislative budget request for FY 2013-14 requests a total of \$62,911 to fund membership dues. Of this amount, \$30,911 is requested to cover dues owed for FY 2012-13 and \$32,000 is requested to cover dues for FY 2013-14.²⁰

Florida has failed to timely pay its annual compact membership dues each year since enactment of the compact in 2008. DOE routinely requests funding for dues in its annual Legislative budget requests, but has received no funding through the General Appropriations Act specifically for membership dues.²¹ However, DOE has found other funding sources to pay the dues. In 2010, federal grant funds held by the Department of Veterans Affairs were used to pay dues owed through FY 2009-10.²² In 2012, Florida's past-due membership dues for FYs 2010-11 and 2011-12 were paid by Enterprise Florida (at the direction of the Governor).²³

Subsequent to the DOE legislative budget request, DOE was notified that the FY 2012-13 membership dues were paid by the Department of Economic Opportunity. More recently, the Department of Defense has notified DOE that the FY 2013-14 membership dues will be \$42,813 (\$10,813 higher than previously identified).²⁴

Cloud Computing and Cloud Virtualization

Job Demand

- **About 1.7 million** cloud computing-related jobs globally could **Not** be filled in 2012 because applicants lacked training, certification and experience needed to work in a cloud-enabled world, according to a study by IDC.
- The demand for cloud-savvy IT professionals will **grow by 26% annually until 2015** creating as many as seven million cloud-related vacancies worldwide, predicted IDC in its white paper titled “Climate Change: Cloud’s Impact on IT Organizations and Staffing.”
- A research firm warned that there is an **urgent need to retrain existing IT professionals and encourage students to pursue cloud-related IT trainings and certifications.**

Source: www.computerweekly.com

Jobs and the Future Demand

- Cloud Computing and Cloud Virtualization will touch every industry sector.
- Cloud computing will create nearly **14 million new global jobs** between 2011 and 2015.
- By 2015, business revenues from IT innovation enabled by the cloud could reach **\$1.1 trillion a year globally.**
- Cloud-related jobs will accrue **evenly** to all businesses with 500 or fewer employees and those with more than 500 employees.
- More than one-third of cloud-enabled jobs will occur in the communications and media, banking, and discrete manufacturing industries.

Cloud Computing- Federal, State, and Local Governments

The 2011 Federal Cloud Computing Strategy, issued by the federal Chief Information Officer, characterized cloud computing as a “**profound economic and technical shift [with] great potential to reduce the cost of federal Information Technology (IT) systems while ... improving IT capabilities and stimulating innovation in IT solutions.**”

The federal cloud computing vision is exciting to technology vendors and the industry in general. **With an \$80 billion IT budget—\$20 billion of which will be migrated to the cloud** according to the “Cloud First” policy—the U.S. government represents the largest and most reliable source for IT spending today and therefore can wield an enormous influence on how the industry will define and use the cloud.

Governments Save \$ with Cloud Computing

Eighty-two percent of federal and 77 percent of state and local IT professionals surveyed say their agencies have implemented server virtualization, **leading to an estimated savings of 19 percent of their IT budgets** -- \$15 billion across government, according to the report, “Virtualization Vacuum: The 2012 Government Virtualization Study.”

On average, IT professionals expect virtualized workloads to almost double in the next four years – from 37 percent to 63 percent. **Federal managers expect their virtualization savings to grow from 19 percent to 30 percent – or \$23.6 billion – by 2015, the report states.**

Development and Dissemination of Cloud Training

FSCJ was funded by the National Science Foundation (NSF) Advanced Technological Education (ATE) grant program to:

- Develop undergraduate courses in cloud computing and cloud virtualization.
- Disseminate, support, and train other colleges in Florida
- The curricula provides:
 - College students with opportunities to receive 5 vendor certifications that meet Florida's Gold Standard (credit for certification).
 - The creation of a new college credit certificate in cloud virtualization.
 - Provides 320 hours of advanced hands-on training in cloud virtualization.

Creating the Pipeline for High Schools

Summer 2013, Florida State College at Jacksonville along with partner colleges will:

1. Create a new high school focused virtualization course/certification.
2. Host virtualization summer camps for 16 Florida high schools.
3. Teach virtualization to over 180 high school students.
4. Provide train-the-trainer courses for over 20 high school teachers.
5. Create a new virtual internship program.
6. Use FSCJ virtualization resources to save high schools expenditures on equipment and support.

Industry Partners

Citrix, VMware, and EMC

- Developing a first in the nation cloud virtualization certification for high school students that will be included in Florida's CAPE Act.
- Providing training, software, and curriculum for high school through masters degree.
- Providing certification vouchers to students.
- Committing to work with Florida on new high school, college, and grad school courses/certifications.

Industry Partners In-Kind Contributions

Citrix

- Instructor resources, instructor training, software and licenses – valued at up to **\$101,750 per IT Academy** (5 -8 Academies).
- Student curriculum and lab exercises – valued at **\$5,000 per student**.
- State approved courses currently align with 2 certifications.

VMware

- Instructor and student resources- **valued at \$25,000 per class**.
- State approved courses currently align with 2 certifications.

EMC

- Instructor and student resources- **valued at \$54,000 per class**.
- State approved courses currently align with 1 certification.

VMware - Company Overview

Proven Market Leader

- \$4.61 billion in 2012 revenues
- >\$4.63 billion in cash
- ~13,300 employees worldwide

Proven in the Trenches

- 400,000+ VMware customers
- 100% of Fortune 100
- 100% of Fortune Global 100
- 99% of Fortune 1000
- 97% of Fortune Global 500

Industry Needs & Growth Areas

- Students coming into the workplace with Virtualization and Cloud Computing skills – administrators, developers, business analysts and architects.
- According to a March 2012 International Data Corporation study, the cloud computing sector will generate approximately **14 million new jobs** and \$1.1 trillion in profits by the year 2015.

VMware is Committed to Education

- Assisting in creation of new high school course.
- Providing support to colleges for A.S. and B.A.S degrees.
- Collaborating with our university system partners to create a new masters degree in higher level cloud skills.

EMC - Company Overview

- Customers range from startups to Global 500
- Ranked 139 in Global Fortune 500
- 53,500 employees across 80 countries
 - Extensive focus on Education & Development
- \$21.7 Billion in revenue in 2012
- Since 2003:
 - Invested \$12.3B in R&D
 - Invested \$14.5B in acquisitions

EMC - Company Overview

- EMC is a global leader in enabling businesses and service providers to transform their operations and deliver information technology as a service (ITaaS).
- Fundamental to this transformation is cloud computing.
- Through innovative products and services, EMC accelerates the journey to cloud computing, helping IT departments to store, manage, protect and analyze their most valuable asset — information — in a more agile, trusted and cost-efficient way.

EMC Transforms Students' Opportunities

EMC Academic Alliance partners with colleges and universities worldwide to educate students on information infrastructure technology -1,000+ institutions in 60+ countries.

Prepares students for roles in virtualized and cloud environments

- In increasingly complex IT environments
- On organizations' migration to the cloud
- In big data and other analytics projects
- On backup and recovery planning and implementation

Provides unique 'open' courseware at no cost

- Information Storage & Management
- NEW Cloud Infrastructure & Services
- NEW Data Science & Big Data Analytics
- NEW Backup Recovery Systems & Architecture

Provides students with a competitive edge !

Citrix - Company Overview

- Citrix powers mobile workstyles and cloud services with market-leading cloud, networking and virtualization technologies.
- Our virtualization and network products deliver over **100 million corporate desktops** and touches **75 percent of Internet users** each day.
- Citrix provides in-demand virtualization and cloud computing certifications.

Citrix IT Academies

- Provides education institutions with virtualized servers, desktop, and application administration curriculum – all with hands-on labs aligning to the Citrix Certified Administrator certification
- Provides in-kind value to colleges
 - Instructor resources, instructor training, software and licenses – valued at up to **\$101,750** per IT Academy
 - Student curriculum and lab exercises – valued at **\$5,000/student/curricula**

Citrix – What Industry Needs

- **Skilled talent as we transition from**
 - Traditional IT ... to cloud computing
 - Owning and managing hardware and software ... to migrating it to IT as service
 - Corporate owned/managed devices ... to personal mobile devices
- **Growth in certain job areas**
 - **Administrators** – to install, monitor, optimize and troubleshoot virtualization products
 - **Engineers** – to integrate multiple products into a comprehensive virtualization solution
 - **Architects** – to design and analyze comprehensive end-to-end virtualized and cloud environments
